

StairTreads

PRODUCT DESCRIPTION

Composite Engineering offers a wide range of safety anti-slip StairTreads, tread covers and landing areas from stock.

StairTreads are manufactured from high quality Isophthalic Polyester resin for superior chemical resistance and have a hard wearing quartz grit added for the ultimate in anti-slip.

FRP (Fibreglass Reinforced Polyester) StairTreads are available from stock in green or yellow. Treads are a standard 273mm wide and can be cut to any length. Special sizes and colours can also be manufactured.

StairTreads have a solid black nosing for added strength and don't require support bars across the front.

Stainless steel (316) clips, nuts and bolts are available for fixing where applicable.
