

# CURECON AA

## WATER BASED, ALIPHATIC ALCOHOL FINISHING COMPOUND

### DESCRIPTION

CURECON DOUBLE A is a water based, aliphatic alcohol finishing compound designed for use on plastic (freshly poured and screeded) concrete, to reduce the evaporation of water during finishing operations.

CURECON DOUBLE A will not normally interfere with subsequent toppings, tiling, render, surface coatings etc. often used in industry.

**PLEASE NOTE:** CURECON DOUBLE A is NOT a curing compound.

AFTEK CURECON W, W30, PW, PW30, BE or A are water based curing compounds complying with AS3799.

### ADVANTAGES

- Water based
- Reduces evaporation of water from the concrete surface
- Improves finishing properties in adverse weather conditions
- Reduces shrinkage cracking through premature drying
- Does not interfere with following trades

### TYPICAL PROPERTIES

Appearance	Pale blue liquid
Colour when dry	Dries clear
Specific gravity	~1.00
Application rate	5 – 7 m <sup>2</sup> per litre

### APPLICATION INSTRUCTIONS

#### Preparation

Pre-dilute with clean water, at a rate 1 part CURECON DOUBLE A to 9 parts water by volume. Stir the mixture thoroughly prior to application.

#### Application

Apply using a low pressure backpack type spray, at a coverage rate of 5-7m<sup>2</sup>/L. immediately after screeding. Curecon Double A should be re-applied each time the surface is broken (i.e. screed, bull float, troweling).

### CLEAN UP

Clean all equipment with water prior to the coating drying. Use methylated spirit and turps, 50/50 if Curecon Double A has dried.

### ESTIMATING

#### Packaging

Curecon Double A is supplied in 20 litre or 200 litre drums.

### PRECAUTIONS

Curecon Double A may “layer” when stored for extended periods of time. Stir thoroughly before use.

It is recommended that mixed Curecon Double A is not stored. Mix only that amount of product likely to be needed for each application.

Do not apply Curecon Double A to surfaces with excessive bleed.

### STORAGE

Curecon Double A must be stored in the original unopened containers in a cool dry place. Do NOT freeze.

Curecon Double A should be used within 12 months of date of manufacture.

### HEALTH AND SAFETY

Curecon Double A is not considered to be a hazardous product, however unnecessary skin contact should be avoided. After use, wash hands before eating, smoking or drinking.

Any contact with eyes or skin should be immediately washed off with soap and clean water. Do NOT use solvent. Protective gloves, goggles and clothing should be worn.

For more detailed information, please read the SDS for this product.

## TECHNICAL SUPPORT

Aftek offers a comprehensive range of high quality, high performance construction products. In addition, Aftek offers technical support and on-site advice to specifiers, end users and contractors.

## ALLIED PRODUCTS

Aftek manufactures a broad range of construction products including:

Grouts

Coatings

Admixtures

Adhesives

Sealants

Floor Toppings

Floor Levelling Compounds

Concrete Repair

Concrete Curing

Product:	CURECON AA
Issue Date:	NOV 2017
Issue No:	DO2

The information and any recommendations relating to the application and end -use of all IAFTEK products are provided in good faith based on AFTEK's knowledge and experience of the products. In applications, the differences in materials, and variances of substrates and actual site conditions can vary such that no warranty in respect of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be taken as inferred either from this information, or from any written recommendations, or from any other advice offered by AFTEK.
