

MIROTONE

Leading the way in coating systems since 1938

MIROWAX 735

Data Sheet

Date of Issue: 29/4/02
Document Ref: D-1012
Product Code: 1012-001

DESCRIPTION:

MIROWAX 735, a non-silicone instant repair timber wax putty stick, is ideal for the repair of minor scratches and surface defects on furniture. It is quick and easy to use and, unlike other water or solvent-based putties, can be recoated or polished immediately after use. Minor damage can be repaired instantly with MIROWAX 735 and, because it is made entirely from wax, it has an indefinite shelf life.

TYPICAL APPLICATIONS:

Nail Holes	Edge Bruising
Minor Blemishes	Restoration Work

TECHNICAL DATA:

Colours:	Natural, Cedar, Jarrah, Mahogany, Maple, Oak, Pine, Teak, Walnut, White.
Shelf Life:	Indefinite
Packaging:	Packs of 5 sticks

APPLICATION SYSTEMS:

Application:	Soften the wax stick slightly to make it a pliable product. Scrape a portion off with a knife or spatula and push the wax into the hole. Remove excess. Use reverse side of sandpaper and rub the surface until smooth. Wipe with mineral turps. Allow to dry. Overcoat with any Mirotone timber coating.
Mixing Colours:	May be melted and blended to obtain a range of timber colours.

HEALTH AND SAFETY:

Material Safety Data Sheet available on request.

MIROWAX 735

In general, Mirotone timber products are ideal for use on internal timber surfaces such as banisters, timber wall and ceiling paneling, architraves and skirting boards as well as furniture.

For the most suitable product for your particular application please consult your Mirotone Representative.

This Data Sheet is based on information in Mirotone's possession at the 'Date of Issue' above. Later experience may lead to amendments. Users should check with Mirotone to ensure that this Data Sheet is still current.

The information contained in this Data Sheet is based on data appraised in our own Laboratories and on our own research, and that of others whose work we believe is reliable. Due to possible differences between controlled laboratory and test conditions and methods, and actual application conditions and methods, coupled with possible differences in interpretation of results, the user of this product must satisfy himself that the end result obtainable under his particular application conditions meets his requirements. Special attention is directed to the problem of chemical compatibility, as Mirotone can control only the quality and formulation of its own materials. It has no control over quality, formulation or consistency of other than Mirotone's products or the substrate to which its product is applied. Therefore Mirotone supplies its products only on condition that the consumer himself is satisfied as to the performance of the product in meeting his particular requirements.
