

DEMOLITION SAWS

K760 14 INCH

The successful model K750 with all its user benefits like X-Torq engine technology, low vibrations, excellent ergonomics and other features is now taken to new heights in the shape of the new model, K760.

The Active Air Filtration system has from the start been a unique and effective way of cleaning the intake air on our power cutters. On model K760 we are proud to introduce the next generation of Active Air Filtration in addition to our traditional features and benefits.

K760

K970 14 - 16 INCH

A new, exciting design. Improved ergonomics. And technical solutions that let the user achieve more with less effort. The K970 is Husqvarna's most interesting innovation in the power cutter segment this year.

Clearly inspired by its chain saws, Husqvarna has created a modern, streamlined cutter of compact design – and under its cover are all the technical solutions that facilitate the work of cutting and drilling professionals: first and foremost the powerful X-torq® engine, that gives a higher output while reducing emissions by up to 75 percent and fuel consumption by 20 percent.

K970

K1250 16 INCH

When it comes to handheld petrol-driven cutters for demanding jobs, with blades up to 400 mm and cutting depths up to 145 mm, our largest model, the Husqvarna K1250, is in a class of its own. Despite a large and powerful engine, this brawny, full-size machine is surprisingly easy to operate. The Husqvarna K1250, with an impressive 5.8 kW output, is the market's most powerful cutter, and can easily drive 400 mm blades.

K1250

MODEL	K760	K970	K970	K1250
Part No.	K760	K970-14	K970-16	K1250
Power Output	3.7 kW	4.8 kW	4.8 kW	5.8 kW
Cylinder Displacement	74 cm ³	94 cm ³	94 cm ³	119 cm ³
Blade Diameter (mm)	300/350	300/350/400	300/350/400	350/400
Max Cutting Depth (mm)	100/125	100/125/145	100/125/145	125/145
Weight (kg)	9.7/10.2	10.6/11/11.8	10.6/11/11.8	13.7/14.6
Sound Level	97 dB(A)	104 dB(A)	104 dB(A)	102 dB(A)

The mobile battery powered water tank WT10 is of course an ideal complement to K760 as well as to any other power cutter. This combination will allow total independence for doing the smaller jobs anywhere.

Husqvarna cutting trolleys are designed specifically for Husqvarna's handheld petrol power cutters. The quick connections make it easy to install the cutter on the trolley, and the cutting depth is easy to adjust. With a cutting trolley it's easy to cut in straight or curved lines, and close to walls and kerbstones. The design is compact and they're easy to fold up and transport.
