

The system is designed to remove gross pollutants, such as vegetation matter and silt from roofs and stormwater pits before allowing water to enter the

Atlantis[®] Matrix[®] Tank

How it Works!

The unit features a removable trash screen for easy cleaning, which ensures litter free water enters the tank system.

The unit also contains a filtration system that bio-remediates soluble stormwater contaminants. This filtration chamber provides primary macro and secondary biological water remediation. The unit delivers decontaminated water to the **Atlantis[®] Tank Modules** where tertiary remediation occurs continuously.

Easy to Use!

The Atlantis Filtration Unit is user friendly, easy to install and provides years of trouble free service requiring low maintenance.

Benefits:

- Filters stormwater “at source”
- Easy installation
- User friendly maintenance

Small Filtration Unit

Large Filtration Unit

An Atlantis[®] Filtration Unit installed into the garden area.

Installation of an **Atlantis® Filtration Unit** in the garden area of new home.

The large **Atlantis® Filtration Unit** features a lightweight aluminium lid allowing easy access for maintenance.

The trash screen collects all gross pollutants and micro pollutants as small as 180 microns.

Filtration Units

Part No: 60002

Single down Pipe

Suitable for single pipe applications of 12 L/sec.

Size: (H)480 x (W)450mm

Part No: 60003

Multiple down Pipe

Suitable for flow situations of 20 L/sec.

Size: (H)880 x (W)680mm

Note: Atlantis® products are manufactured from high quality recycled materials, carefully selected and under strict quality control procedures. The strength could vary slightly due to raw material, country of manufacture, manufacturing process and external conditions.

Safety Factors: Engineers, designers and geotechnical engineers should design and calculate safety factors to a serviceable limited state to suit specific project. In case of doubt, consult your nearest distributor or Atlantis representative.

Disclaimer: All information provided in this publication is correct to the best knowledge of the company and is given out in good faith. This information is intended only as a general guide, no responsibility can be accepted for any errors, omissions or incorrect assumption. As each project is unique, and as Rebirth Pty Ltd, Atlantis Water Management, Atlantis Corporation Pty Ltd and its distributors and agents world wide have no direct control over the methods employed by the user in specifying, installing or supervising of its products hence no responsibility is accepted by Rebirth Pty Ltd, Atlantis Water Management, Atlantis Corporation Pty Ltd and its distributors and agents world wide. Users should satisfy themselves as to the suitability of the product for their purpose.

All product designs, and specification are subject to change without further notice. All Atlantis® products are tested in approved NATA laboratories, and safe allowed tolerances should be practised in the actual field, to compensate for any unforeseen situations, onsite and on products.
