Hoppt Concrete Surface Grinder

HSG-SP

Hoppt Concrete Surface Grinder

The Hoppt HSG-SP concrete surface grinder is the perfect choice for removal of paint & epoxy, grinding and repairing concrete surface imperfections. With the addition of the ever reliable Honda GX160 – there is no need for a power outlet making it more versatile than its electric counterparts.

Features and Benefits

- Honda GX160 provides higher horsepower for quicker grinding
- Added mobility without the restriction of power sockets
- Throttle control located conveniently on the handle
- Lifting hook for easy transportation
- Easy access to the blades, making blade changing and maintenance easy
