Hoppt Concrete Scarifier

SPM-1

Hoppt Concrete Scarifier

The Hoppt SPM-1 concrete scarifier is designed for the planing and levelling of concrete surfaces. The pummelling action of the tungsten carbide blades is perfect for the complete and quick removal of trip hazards including uneven footpaths, dirty surfaces and surface coatings. Used extensively for floor renovations of production halls, factories, farm buildings, parking lots and other large utility buildings on all levels.

Features and Benefits

- Genuine Honda GX160 motor for reliability
- Easy to use switch located conveniently on the handle
- Tungsten Carbide cutters for durability & fast milling of concrete and other surface coatings
- Vacuum outlet for dust & debris control

Specifications	SPM-1
Operating Weight – (kg)	66
Machine Dimensions - (mm)	1,075 x 415 x 1,050
Maximum Cutting Depth – (mm)	3
Working Width – (mm)	203
Engine	Honda GXV160 3.2kW – 4 stroke Petrol
